8. That the proposed subdivision will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted.
9. That the establishment of the proposed subdivision will not impede the normal and orderly development and improvement of surrounding vacant property for predominant uses in the area.

**NOW THEREFORE BE IT RESOLVED**, by the Blue Earth County Board of Commissioners, that the request for approval of the preliminary plat of Prairie Lake Subdivision, a two lot, five outlot subdivision located in the Agricultural and Conservation Zoned Districts and the Shoreland Overlay District of Madison Lake and located in the southwest, southeast, northwest and southwest quarters of the southwest quarter of Section 11, Le Ray Township (T-108-N, R-25-W) is **granted** with the following conditions:

1. Wetland delineation must be completed prior to Final Plat review and delineated boundaries displayed on the Final Plat.
2. Preliminary grading plans must be submitted prior to Final Plat review as needed.
3. Final grading plans must be submitted with Final Plat.
4. The Drainage Report must be amended and reviewed prior to Final Plat review to address the following:
  - a) Consideration should be given to using a less-complicated, more natural stormwater system using surface drainage, vegetation and infiltration rather than buried pipes and manmade materials to avoid using linear projects in the permanent stormwater system.
  - b) A description of the “underdrain” system explaining how it complies with the requirements of the NDPES permit’s Permanent Stormwater Management System to treat and infiltrate water before it leaves the site or discharged to impaired surface water and how it complies with County ordinances limiting post-development runoff to pre-development rates and volume.
  - c) A description and map of impervious surface locations on each lot, amount and flow calculations for each proposed watershed and each drainage easement, how pre- and post- development runoff will not increase, and how erosion will be controlled. Impervious surfaces should include a minimum of 12,000 square feet on each lot in the area where impervious surfaces are likely to be constructed near the lake and bluff setback lines.

- d) Location of subsurface tile and tile outlets to ensure all tile discharges are accounted for in the drainage review and final Drainage Report so potential drainage problems are avoided and water rights are protected for current and future land uses.
- 5. Final improvement plans for proposed roads, drainage and erosion control structures must be submitted prior to Final Plat review.
- 6. Property owner must submit a long term maintenance plan for permanent stormwater system and indicate who will be responsible for long term maintenance.
- 7. The Stormwater Pollution Prevention Plan and Permanent Stormwater System required for the NPDES permit must be submitted for review with the Final Plat.
- 8. Required amendments to the preliminary plat shall be submitted for review with the submittal of a final plat application.

The motion carried. 2013-142

Commissioner Purvis moved and Commissioner Stuehrenberg seconded the motion to approve the following financing resolution:

**RESOLUTION RELATING TO  
FINANCING OF CERTAIN PROPOSED PROJECTS TO BE UNDERTAKEN  
BY THE COUNTY; ESTABLISHING COMPLIANCE WITH REIMBURSEMENT  
BOND REGULATIONS UNDER THE INTERNAL REVENUE CODE**

**BE IT RESOLVED** by the Board of County Commissioners (the “Board”) of Blue Earth County, Minnesota (the “County”), as follows:

**1. Recitals.**

- (a) The Internal Revenue Service has issued Section 1.150-2 of the Income Tax Regulations (the “Regulations”) dealing with the issuance of bonds, all or a portion of the proceeds of which are to be used to reimburse the County for project expenditures made by the County prior to the date of issuance.
- (b) The Regulations generally require that the County make a declaration of its official intent to reimburse itself for such prior expenditures out of the proceeds of a subsequently issued series of bonds within 60 days after payment of the expenditures, that the bonds be issued and the reimbursement allocation be made from the proceeds of such bonds within the reimbursement period (as defined in the Regulations), and that the expenditures reimbursed be capital expenditures or costs of issuance of the bonds.
- (c) The County desires to comply with requirements of the Regulations with respect to certain projects hereinafter identified.

**2. Official Intent Declaration.**

- (a) The County proposes to undertake the following project or projects and to make original expenditures with respect thereto prior to the issuance of reimbursement bonds, and reasonably expects to issue

reimbursement bonds for such project or projects in the maximum principal amounts shown below:

<u>Project</u>	<u>Maximum Amount of Bonds Expected to be Issued for Project</u>
JD 38 improvement	\$250,000.00

- (b) Other than (i) de minimis amounts permitted to be reimbursed pursuant to Section 1.150-2(f)(1) of the Regulations or (ii) expenditures constituting preliminary expenditures as defined in Section 1.150-2(f)(2) of the Regulations, the County will not seek reimbursement for any original expenditures with respect to the foregoing projects paid more than 60 days prior to the date of adoption of this resolution. All original expenditures for which reimbursement is sought will be capital expenditures or costs of issuance of the reimbursement bonds.

**3. Budgetary Matters.**

As of the date hereof, there are no County funds reserved, pledged, allocated on a long term basis or otherwise set aside (or reasonably expected to be reserved, pledged, allocated on a long term basis or otherwise set aside) to provide permanent financing for the original expenditures related to the projects, other than pursuant to the issuance of the reimbursement bonds. Consequently, it is not expected that the issuance of the reimbursement bonds will result in the creation of any replacement proceeds.

**4. Reimbursement Allocations.**

The County's Financial officer shall be responsible for making the "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the reimbursement bonds to reimburse the source of temporary financing used by the County to make payment of the original expenditures relating to the projects. Each reimbursement allocation shall be made within 30 days of the date of issuance of the reimbursement bonds, shall be evidenced by an entry on the official books and records of the county maintained for the reimbursement bonds and shall specifically identify the original expenditures being reimbursed.

## MEMORANDUM

TO: Mr. Robert Meyer, Blue Earth County Administrator

FROM: Scott Fichtner, Environmental Services 

SUBJECT: Joint Powers Agreement for the Operation of a HHW Program

DATE: April 24, 2013

In December, 2012, the County Board approved the renewal of the Joint Powers Agreement between Blue Earth County and the Minnesota Pollution Control Agency (MPCA) that specifies Blue Earth County as the Sponsoring Organization for the Operation of a Regional Household Hazardous Waste (HHW) Program in this area. This partnership began in 1993 and the current agreement runs from January 1, 2013 through December 31, 2017.

One of Blue Earth County's responsibilities as the Regional Sponsoring Organization is to maintain contracts with the surrounding Co-Sponsoring Counties of Watonwan, Brown, Tri-County (Nicollet, Le Sueur and Sibley Counties) and Prairieland (Martin and Faribault Counties). These contracts have been in place since 1993.

The MPCA has developed Contract Amendment #2 that will continue each of the current regional Co-Sponsoring Contracts through the end of 2017. Blue Earth County, the MPCA and the Co-Sponsoring Counties have worked together on this program for the past twenty years and we are recommending approval of all four of the Co-Sponsoring Contract Amendments for residents of this region.

Enclosed are copies of the Amendments between Blue Earth County and each of the four Co-Sponsoring Counties for Board consideration. The Co-Sponsoring Counties have already signed the Amendments. Again, I recommend approval of the Amendments.

cc: Ken Frederick, Environmental Services

## Region Sports Facility Funding Request

To The Blue Earth County Board of Commissioners:

At the March 22<sup>nd</sup> All Seasons Arena Board meeting the Arena Board voted to fund a Market Analysis Study for a region sports facility. **Motion was made by Bob Fryberg to approve the funding for the \$25,000 Market Analysis portion of the study and that ASA would be the supervisory agent for the study. Motion was seconded by Travis Javins. Motion passed.** The funds would come out of the All Seasons Arena capital improvement fund balance and be reimbursed at a later date. **Motion was made by Eric Anderson to reimburse ASA based on the current funding agreement and to also appoint Chad Suprenaut to collect funds from other associations and interested parties to help with the completion and funding of the study. Motion was seconded by Bob Freyberg. Motion passed.** North Mankato has already approved their share of the study which would be approximately \$8,000. This would be enough to complete their share of both the Market analysis and a Financial Analysis total being \$40,000. We will be seeking other donations from other organizations to continue to reduce the costs to the governmental bodies. Blue Earths County's maximum commitment would be \$5,000 and that would complete both studies. The counties commitment will be reduced as more donations come in. ASA will send out a final billing to the governmental bodies after all bills are paid and all donations are collected.

**RESOLUTION RELATING TO  
FINANCING OF CERTAIN PROPOSED PROJECTS TO BE UNDERTAKEN  
BY THE COUNTY; ESTABLISHING COMPLIANCE WITH REIMBURSEMENT  
BOND REGULATIONS UNDER THE INTERNAL REVENUE CODE**

**BE IT RESOLVED** by the Board of County Commissioners (the “Board”) of Blue Earth County, Minnesota (the “County”), as follows:

**1. Recitals.**

- (a) The Internal Revenue Service has issued Section 1.150-2 of the Income Tax Regulations (the “Regulations”) dealing with the issuance of bonds, all or a portion of the proceeds of which are to be used to reimburse the County for project expenditures made by the County prior to the date of issuance.
- (b) The Regulations generally require that the County make a declaration of its official intent to reimburse itself for such prior expenditures out of the proceeds of a subsequently issued series of bonds within 60 days after payment of the expenditures, that the bonds be issued and the reimbursement allocation be made from the proceeds of such bonds within the reimbursement period (as defined in the Regulations), and that the expenditures reimbursed be capital expenditures or costs of issuance of the bonds.
- (c) The County desires to comply with requirements of the Regulations with respect to certain projects hereinafter identified.

**2. Official Intent Declaration.**

- (a) The County proposes to undertake the following project or projects and to make original expenditures with respect thereto prior to the issuance of reimbursement bonds, and reasonably expects to issue reimbursement bonds for such project or projects in the maximum principal amounts shown below:

<u>Project</u>	<u>Maximum Amount of Bonds Expected to be Issued for Project</u>
JD 43 improvement	\$750,000.00

- (b) Other than (i) de minimis amounts permitted to be reimbursed pursuant to Section 1.150-2(f)(1) of the Regulations or (ii) expenditures constituting preliminary expenditures as defined in Section 1.150-2(f)(2) of the Regulations, the County will not seek reimbursement for any original expenditures with respect to the foregoing projects paid more than 60 days prior to the date of adoption of this resolution. All original expenditures for which reimbursement is sought will be capital expenditures or costs of

issuance of the reimbursement bonds.

**3. Budgetary Matters.**

As of the date hereof, there are no County funds reserved, pledged, allocated on a long term basis or otherwise set aside (or reasonably expected to be reserved, pledged, allocated on a long term basis or otherwise set aside) to provide permanent financing for the original expenditures related to the projects, other than pursuant to the issuance of the reimbursement bonds. Consequently, it is not expected that the issuance of the reimbursement bonds will result in the creation of any replacement proceeds.

**4. Reimbursement Allocations.**

The County's Financial officer shall be responsible for making the "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the reimbursement bonds to reimburse the source of temporary financing used by the County to make payment of the original expenditures relating to the projects. Each reimbursement allocation shall be made within 30 days of the date of issuance of the reimbursement bonds, shall be evidenced by an entry on the official books and records of the county maintained for the reimbursement bonds and shall specifically identify the original expenditures being reimbursed.
